EOL Notice

Subject: Intel announce EOL for Pentium M processors & Intel 852/855GME chipsets

E x t e n d e d
L i f e t i m e S u p p o r t

Dear Customer,

We have been advised by Intel that the Pentium M processor range & Intel 852/855GME chipsets have now been moved to official End Of Life – EOL – status.

Kontron, as part of our extended lifetime support program, wishes to inform you that our range of Pentium M processor based embedded boards & motherboards, and any boards based upon the Intel 852/855GME chipsets, are being moved to a Last Time Buy – LTB, along with Last Time to Ship – LTS status.

Further information on this is detailed below.

For any additional information and to discuss alternative products within the Kontron range, please contact your Kontron UK account manager or email; uksales@kontron.com

End Of Life product details:

The Kontron embedded motherboards and SBC's manufacturing division have confirmed the LTB & LTS status of the following products.

886LCD M/Flex, M/ATX, M/mITX, ATXu(GV) range of motherboards.

786LCD/mITX range of motherboards.

AGP-ADD module.

ADD-DVI range of add in graphics boards.

MOPS-PM embedded SBC

JRex-PM embedded SBC

coolMONSTER/PM embedded SBC.

For more detailed product information and part numbers please contact your Kontron UK account manager or the Kontron UK technical support department.

LAST TIME BUY/DELIVERY:

Kontron has secured a large number of these EOL status products and can confirm that LTB purchase orders will be accepted up to **August, 31st 2010**, with LTS **deliveries and schedules** until August, **31st 2012**.

This product line and range have been very successful for a long period of time and we are therefore expecting strong demand for the LTB/LTS process. Kontron will need to adhere to a first come first served basis and will continue to ship as long as stock remains, but not beyond the LTS date as detailed above.

Other Kontron manufacturing divisions will be announcing the LTB & LTS status of their product lines shortly, Kontron UK will provide further product updates as soon as possible:

Please do not hesitate to contact us to discuss this and to review alternative products for your application.

Kind regards

Kontron UK Ltd
